

Europäische Hochschule für Humanökologie

College of Human Ecology for Europe

College Charrette 4. – 7. Februar 2011

Eröffnungsveranstaltung

Emmendingen, 4. Februar 2011

Grußwort Prof. Ken Hill

Academic Dean, College of the Atlantic

Dear Lord Mayor, The People of Emmendingen and the Charette -Team,

I wish I could stand with you on this historic occasion, but due to a medical emergency my doctors have advised me not to travel. The journey that you are about to embark on happened in a similar way in Bar Harbor just 40 years ago. Educated and visionary individuals wanted to improve the economy of the region, the intellectual and artistic capacity of the community, and ultimately make a difference in the world. You have the ability to do all of these things in your community with this wonderful project.

I have been immensely impressed by the driving force and tenacity of Dr. Wolfgang Serbser. He has envisioned and researched how to develop a college of Human Ecology capable of tackling the issues facing the world. Dr. Serbser reminds me of the founding trustees from college of the Atlantic – men and women with the desire to educate and take action. I have no doubt that the esteemed group gathered in Emmendingen will take such planning to the next level.

As the Dean of College of the Atlantic I welcome you all to the ranks of Human Ecology. I look forward to working with you as the planning process continues. Warm regards from your fellow Human Ecologists in the United States.

Sincerely,

Ken Hill, Ph.D.

Academic Dean
